PROFESSIONAL SUMMARY

Full-stack developer with hands-on experience in MERN stack, backend API development, and WordPress websites. Proven ability to build real-world applications including booking systems, billing software, and SaaS-ready platforms. Experienced in GSAP animations, AI-driven content workflows, and collaborating with global startup teams. Strong learner with a practical, problem-solving mindset.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React, Tailwind CSS, GSAP

Backend: Node.js, Express.js, MongoDB, Firebase, REST APIs, JWT Authentication

CMS & No-Code: WordPress (Elementor), WinMeeto

Tools & Platforms: Git, GitHub, Netlify, Render, Canva

AI & Automation: Prompt Engineering, AI Content Generation (Text, Image, Video)

WORK EXPERIENCE

Backend Developer – Dolt (Startup)

2024 – Present - Developed and maintained backend APIs for authentication and booking systems - Implemented JWT-based authentication and secure API flows - Migrated database from MongoDB to Firebase based on evolving startup requirements - Handled deployment and environment setup using Netlify and Render - Collaborated asynchronously with an international founder based in Argentina

WordPress Developer Intern – DSB Virtual World

- Till now delivered 4 WordPress projects from scratch, involving layout customization and content updates
- Coordinated directly with clients to gather requirements and implement changes
- Mentored a junior intern by guiding them through WordPress fundamentals

- Quickly adapted to WordPress development despite no prior experience
-

Freelance GSAP Developer

2023 - Implemented GSAP-based animations to enhance UI interactivity - Added scroll-triggered and motion-based effects for improved user experience - Worked independently to deliver animation-focused frontend enhancements

PROJECTS

Portfolio Website

- Interactive portfolio showcasing frontend, backend, and animation skills
- Implemented GSAP animations and AI-generated cinematic hero video
- Deployed on Netlify
